

### **Hamas's stupid polices caused big suffering for Palestinians:**

Hamas's match sticks (rockets), Hamas boasted in launch it on Israeli citizens, caused a kill and wound hundreds of innocent Palestinians by air sorties Israel waged recently on Gaza's areas as a strong message to Hamas for its aggressive policies against innocent Israeli citizens. Who takes the responsibility for bloodshed these innocent spirits of Palestinians and suffering their wounds is Hamas and its stupid polices because Israeli government would not have performed these destroyed sorties on Palestinians if Hamas had not acted these aggressive and stupid polices in threat Israeli citizens live with its stupid rockets Hamas continued launch on Israeli citizens despite long patience of the Israeli government about these violations.

Hamas's leaders boasted in front of the world that Israeli sorties on Palestinian areas couldn't cause than a kill little number in their fighters lines, these releases of Hamas leaders are quite true because Hamas's fighters used always to advance spirits of innocent Palestinians on their spirits where Hamas fighters hide behind Palestinians houses and schools to protect themselves from bombs of Israeli sorties making Palestinian children and women as human shields repel these bombs in place of them. Due to irresponsible and stupid polices of Hamas leaders, that innocent of children and women Palestinians are who pay the price expensively and bear the bad sequences of these policies for coming years where infrastructure of Palestinians were destroyed due to these sorties and their humanity suffering will last for long time. Mullah's regime in Iran, which supports Hamas military and politically, is participated Hamas in its stupid policies which led to kill and wound hundreds of innocent Palestinians. Policies, Mullah's regime acted in support and promoting the terrorist organizations around the world, caused in creating unstable state in the countries of Middle East area such as Iraq, Palestine and Lebanon and making the terrorism is the Eminent feature of these countries in addition, that these terrorist policies of that regime have threatened the international stabilization for many countries either in Middle East area or the world.

That mullah's regime recruits the youth within the countries, they reside in, to kill the innocent people and feeds the minds of those youth with spirit of the hate and violence towards others people who live alongside them and disagree with that regime. Those terrorists don't care in kill innocents whether those innocents people were from their fellow citizens or others people who disagree with them in race and belief. The goal of mullah's regime is implanting spirit of the hate and violence in minds of those terrorist youth, who are recruited them by that regime, to kill peaceful people.

Hamas promotes for hate and violence culture in Palestinian children and youth lines and teaches them on death and suicide culture instead of they implant and grow up in their inner of love spirit for others people. Instead of Hamas educates Palestinian children and youth with education and good thoughts, but it educates them to how blowing their bodies up with bombs to kill maximum innocent people and arms them with hateful thoughts that promote to culture of a kill the armless people for no reason, but Hamas leaders didn't realize well that who kills the innocents and belittles with their spirits, he should expect the worst for his life's fate. Hamas leaders boasted yesterday in kill the Israeli innocent civilians with their stupid rockets, so they should expect the worst from Israelis today for their and Palestinians' fate.

Hamas and others terrorist organizations associated with Iran promote for unstable world in order for his people not to know the safety and stabilization. There are no limited borders or distances for terrorists and their activities, terrorists take from every land or country operations theatre for their terrorist activities in everyday, international terrorism fed by Iran strikes a safe area in our world and threatens its peaceful people with death. In yesterday, Islamists terrorists caused suddenly bloodshed the tens of innocents people in Bombay and everyday, the world sees new wave of the terrorist acts in different area of the world either in Asia or Europe, but the question which keeps brought up is how long will global community keep watch on terrorists acts fed by mullah's regime without taking international strict actions against that regime to stopping these terrorist acts?

Sincerely Yours,  
Hussein
