## Dedicated:

This month's paper is dedicated to Unsung Heroes that they faced cruelty of Marxist-Islamist riot of 1979/2538 and their families felt huge losses in their life and nothing would be able to illustrate their excruciating pain that they have been going through in this life.

## History of Monarchy in Iran Zamin:

### Nader Shah Afshar

In 1736, Nader held a grand meeting, and all leading Iranian political figures attended this meeting in Azerbaijan, and Nader proposed a question that one person needed to ascend the throne since young King Abbas III was deposed.<sup>1</sup> Nader's reputation as a military leader who saved Iran stood-out, also he was feared by his peers, as all agreed that Nader was a right candidate to ascend the throne of Iran.<sup>2</sup>

On March 08<sup>th</sup>, 1736 astrologers was chosen as the day that Nader needed to proclaim himself as the King of Iran, as Nader followed advice of the astrologers, and declared himself as the King of Iran.<sup>3</sup>

Nader began to implement his own public policy in Iran, and focused on religious reform in Iran.<sup>4</sup> Nader noticed Safavid Dynasty's public policy of converting Iran to Shiaism of following 12 disciples was causing more friction between Iran and Ottoman Empire. Most importantly, Nader Shah's army was composed of Sunni and Shiite sects, and Safavid Dynasty's religious policy of adopting Shiite sect of following 12 disciples was not creating solidarity among his soldiers. Nader Shah introduced Jafari school of thought in honor of disciple Jafar al-Sadiq in order to smooth the road between Iran and Ottoman Empire, and to create solidarity among his soldiers.<sup>5</sup> Ottoman Empire remained firm about its political realism in the region. Only, there was one benefit for Nader Shah from implementing Jafari school of thought as a state religion that Ottoman Empire allowed Iranians to travel to Mecca and perform pilgrimage.<sup>6</sup> Most importantly, Nader Shah enforced tolerance between Sunni and Shiite sects and did not allow anyone to use profanity against initial three Rulers/Khalifehs of Sunni Sect.<sup>7</sup> Even, in one incident as one cleric was trying to instigate chaos by using profanity against initial three

<sup>7</sup> [http://en.wikipedia.org/wiki/Nader\\_Shah](http://en.wikipedia.org/wiki/Nader_Shah)

rulers, as Nader Shah strangled the cleric and making sure that there was no more sectarian violence in Iran.<sup>8</sup> Last, Nader Shah made a hat which had four points which stood as a symbol for first four Rulers in order to govern Iran among diverse faith group of Sunni and Shiite sects.<sup>9</sup>

### Empty Promise

Barack Hussein Obama during election time was promising that how he was going to close down Guantanamo Bay prison in Cuba. He also promised to any form of military courts-martial system to be scrapped in the above prison system, and would make sure detainees would face due process, and would be treated fairly and equally there would not be any kind of torture or coercive method to extract information from detainees. However, recently, it became clear that the above promises were just another empty promise of him to public in order to enhance his popularity among everyone so he would be recognize as a peace loving person.

He has not being in office and has broken one promise, and it would be interesting to see how many more promises would be broken by him, as he will be usher to the White House, and will govern the US for next four years, and promise of ending chaos in Middle East.

#### Tale of One City

It was a few weeks ago that some pictures of Tehran brought to Sarbazan and Janbakhtegan office, and showed Tehran as a glamor place to be. There were fancy cars that they were parked at some corner of streets. There were luxury condominiums in the city of Tehran, this city of Tehran appeared to be something else at night, the

<sup>8</sup> [http://en.wikipedia.org/wiki/Nader\\_Shah](http://en.wikipedia.org/wiki/Nader_Shah)

<sup>9</sup> [http://en.wikipedia.org/wiki/Nader\\_Shah](http://en.wikipedia.org/wiki/Nader_Shah)

lights illuminate every corner of Tehran, these pictures showed Tehran as a place to be and the lights made it more appealing for a person wanted to live there. However, there was another tale of this city which has been concealed beneath of those flashy lights. Residence of Tehran are hungry, and needed food desperately. On Friday October 17<sup>th</sup>, 2008 there was a plan to make the largest sandwich in Tehran and to be recorded in the Guinness Book. This sandwich was 1500 meter long and was made of 700 kilogram of ostrich and 700 kilogram of chicken.

People began to stare at the sandwich as it was prepared by the organizers, and people no longer could hold themselves back, and asked for a piece of sandwich. Eventually, public wanted more than one piece of sandwich and kind of overwhelm the organizers and eat the whole sandwich. The organizers could not report the matter to the Guinness Book.

Here people were not at fault, they were just hungry and needed food to eat. Here Revolutionary Guard, and elite of the society that they built those luxury buildings and owned those fancy cars were at fault that they did not share Iran's wealth with these hungry people.

## **Correspondent from Iraq:**

### **Culture and Religion are two Concomitant Elements:**

That culture and religion are two concomitant things and can't be severed. that the nation which gives up its religion, that it is nation gives up its culture and civilization's heritage too that's why that many peoples and nations, that accepted the Islam as an alternative religion than their original religion, have forgotten their ancient original cultures and clearer example for that is the Persian nation. we know well that original and ancient religion to Iran since oldest ages was the Zoroastrianism, but after Islamic invasion to Persia by Arabs, that Persian people started accept invader Islamic culture and give up their genuine religion little by little and as time goes by, Persian people forgot Zoroastrianism religion completely and became fight who remained believe it so when Iranians forgot their original religion, that they have forgotten all cultures and customs associated with that religion and nothing remained of that religion in order for Iranians to remember it than Nouroz Christmas even this Christmas, that Islamists took on the task delude Iranians telling them that Nouroz is Islamic Christmas and not Zoroastrian occasion where most Iranians have accepted that clear forging. That nations that give up their original religions are nations ready to accept any another invader culture than their original culture. That my talk doesn't only apply to Iran and its Zoroastrianism, but is a general talk applies to all others religions and nations, but Iran was a clearer example for that fact I explained. What I noted is that Iranian people when they believe ideology, that they accept it and surrender to its ascendancy tremendously as they surrendered to Islam even that Arabs themselves don't believe and surrender strongly to Islam as Iranians did although that religion is coming from them sometimes I think that the cause is may be resulted from that there is thirst for some people or nations to accept others religions cultures belonging to others nations than their original religions.

That west (Europe) kept adhered with his culture because it kept adhered with his Christianity religion hence, that most European peoples are convergent peoples in their customs and cultures in spite of differences of their nationalities and races because they inspire their culture from this Christianity religion so we can see that Christians throughout the world are pride and boast their religion and they educate their sons on it even if they just were a minority live among large Islamic community. That Christians realized completely that their religion is rather than any religion else to be favored or accepted relative to others religions that's why that they didn't accept cultural Islamic invasion in Islamic countries they live in. what notable about Christians throughout the world, that they inspire their customs and cultures from their Christianity even in most advanced countries such as United States and European countries, that their Christian peoples inspire their values and ideological and social culture from that religion in spite of the technology progress to that countries in many sciences such as (Engineering, Medicine, Space, etc) even that some daily practices to peoples of that countries are practices taken of inspiration or suggesting of Christianity religion culture and its traditions.

Hence we can understand that what happened in Iran when its monarchy was fallen during Islamic riot events back in 1979 wasn't real revolution as Islamists figure it to Iranian people and the world as much as it is ancient conflict between two different cultures are Islamic culture represented by extremist Islamists and ancient Persian culture represented by 2500 years old monarchy and that revolution wasn't a case due to degrading of Iranian people living level or poverty state Iranians suffered as Islamists tried to delude people for those lies. I want say that what angered clerics and made them riot against Iran's Shah is because Shah took revive and prefer ancient Persia culture than invader Islamic culture through several important achievements Shah performed, such as emancipation woman to be made equal to man in all life fields and keeping up with urban, economical, health and social development available for advanced countries such as an European countries and United States all these achievements Shah did at the time angered extremist Islamists and made them riot against monarchy because those Islamists don't want predominate Iran's ancient culture than their invader Islamic culture. That his Imperial majesty, Mohammed Reza Shah has made great ideological, social and economical changes in Iran during his rule, made Iran one of most advanced countries in the world at the time, but these changes scared extremist Islamists being missed loyalty and obedience of Iranians for them and lost their interests and influence among Iranian community that's why which led to Khomeini to do his revolution against Shah.

## *Iraq-Iran War (1980-1988) part 2 or Iraqi casualties during Iraq-Iran War:*

I have mentioned in my previous article some negative social and psychological effects Iraq-Iran war left for Iraqi's personality and behavior, but I didn't mention human and materialist loses war caused during it is happened because there are no official accurate statistics have been announced publicly about those loses even if such numerical statistics were found that it still secret and unannounced publicly because Saddam was hide these loses whether were human or materialist from Iraqi people and global community because these loses were very huge and Saddam was not give any number for Iraqi casualties at any battle Iraqi army performed against Iran during days of that war although Iraqi casualties were very tremendous through these battles and that unofficial approximate assessments were guess these loses with hundreds of thousands of casualties among killed and wounded where no day was pass without we hear that 2 killed or more have been mourned in small neighborhood of Baghdad neighborhoods or others Iraqi provinces' small neighborhoods that is in hundreds. An impact of that war has been very big for Iraqi people where that war didn't leave one Iraqi house without it leaves in a killed, missing, war prisoner or disabled veteran even that high percentage of Iraqi houses within one small family got 3 or more casualties among a killed, prisoner or handicapped. There was no a match to that war for Iraq wars got during his history whether were in 20th century or others previous centuries regarding of human and materialist loses Iraqi people got during that war. Saddam has involved all Iraq's youth in that war by forcing and terror them and considered any Iraqi defaults from it is a traitor and deserves execution. Saddam has enlisted Iraqis in 18-60 years ages to participate in the war even who have university or scientific degrees and high professional specialties, that Saddam didn't except them from participation in that war where each Iraqi was complete his university study for any specialty he had to join to army to be sent to fight fronts and anyone defaults from that war, he was executed without trail. Saddam has made execution factions and deployed them in back lines for fight fronts with Iran to take over execution process directly for any Iraqi soldier tries to escape from forward lines backwards and any Iraqi family was tries to hide their sons or father of family in order for not to go to holocaust of that war out of concern for their safety, that execution factions was sent to that house to execute defaulter son or father in front of his family with cold blood and was banned to be held him a funeral by his family. Saddam has employed all Iraq's human and materialist abilities for that war he didn't stop at extent of burning oil exports moneys of Iraq to financing his war, but he forced each Iraqi family for donation for that war coercively. In addition to that, Saddam has turn Iraq totally into big prison for Iraqis where he banned Iraqi youth to travel out of country for any reason in order for not to escape from that war. That fear and terror factor Saddam implanted in Iraqis hearts was vital reason to make all Iraqis men with different ages from 18-60 years to participate in that war. Saddam didn't except anyone from participation of the war except his family members and close families to his regime such as top officials families.

That Saddam didn't stop for that extent regarding forcing Iraqis to involving them in holocaust of his war, but was execute any person utter with one word with his friend privately criticizing Saddam's policy leading to breaking out that war where Saddam taught Iraqis for that purpose to espy and telltale each other so when someone was come to secret police to report his friend or relative who criticized Saddam before him, that secret police takes telltale person's talk seriously, even if he was lying, to arrest his friend or relative he told tale hence Saddam made each Iraqi fear to criticize him before his friend or brother privately. Even top officials and military commanders not to be excepted from punishment if anyone of them tried to criticize Saddam and his policy for the war with his friend for that purpose Saddam deployed a lot of spies among those top officials and commanders to be hired by Saddam's intelligence to work as drivers, employees or servants for those officials or commanders without those officials and commanders were knowing that their servants or employees are actually work as spies to report any bad talk or criticism they utter against Saddam or his policy. In the process of that there is a story happened for one of top military commanders who was occupy Division commander position when this commander was talk to officer friend to him privately when they were in fight front criticizing Saddam's policy for the war once one of his soldiers who was work as a servant for that commander heard his commander's talk, he communicated his commander's talk about Saddam to secret police of Saddam due to that Saddam sent some men of his secret police to house of that commander taking advantage his absence period in

fight front to rape his wife and then Saddam called that commander to show him a videotape of rape process of his wife by secret police threatening him that videotape would be handed out to market if he refused to espy his fellow commanders and report any criticism or bad talk they utter about Saddam and his policy.

Saddam was urge Iraqis in his most speeches to give up their welfare regarding their clothing and living for contribution in that war. He was always invite Iraqis to struggle their living requirements and live themselves under hard exceptional conditions for financing the war although Iraqi oil exports were so enough to make all Iraqis live in very high welfare, but Saddam was burn all these tremendous moneys for buying weapons to feed his crazy war against Iran and he wasn't give Iraqi people than very small portion of oil exports moneys of Iraqi oil.

Finally I would like say that Saddam through his war didn't just destroy Iraq economy and exhaust his men only, but destroyed Iraqis morals and their behaviors and turn them from civilized nation into barbarian and uncivilized nation its strong eats its weak.

### **Feeling Pain:**

Hearing news from Iran that Iranians are facing high inflation rate close to 18%<sup>10</sup> and unemployment rate is recorded for this year is 12%<sup>11</sup> and the regime is ignoring needs of people and has decided to sponsor its surrogate terrorist cells in Lebanon, Palestine and other part of the world. In addition, the regime is investing money outside of Iran which has paralyzed Iran's economy, and there is no money for Iranians to pay for their basic necessity of life. The regime in Iran burned Iran to ashes and the regime would makes sure Iranians would suffer more, and just being witness to these kind of inhuman behavior of the regime breaks anyone's heart at first sight of the news.

### **Obituary:**

### **Report:**

#### 21 Azar

Yasha gozal Iran, Oja dorsan Iran, Kor olson doshmanlari

We Azeri people will never give small dust of Iran to anyone, Iran is ours, and will shed this blood for proud land of Iran, now you want to say this Azerbaijan not Iran, it is too late to say it. Long Live Iran.

The below paper is drafted by an eyewitness account who lived to say this story to us today that how former Soviet Union of Socialist Republic was trying to disintegrate Iran.

Tzar in Russia was defeated by workers revolution as it was organized by Joseph Stalin, John Lennon and their associates toppled the Tzar dynasty in Russia. When Russia transformed itself to Soviet Union of Socialist Republic, it began to imposed its ideology on younger generation and brainwashing them with coercive method that only communist party of the Soviet Union of Socialist Republic was absolute truth. For example, teachers would not allow students to eat food or drink water, and were forced to call upon God for food and water. Once students were exhausted from shouting God for food and water. Teachers would tell their students, did you see there is no God? As students would confirm

<sup>10</sup> [http://www.indexmundi.com/iran/inflation\\_rate\\_\(consumer\\_prices\).html](http://www.indexmundi.com/iran/inflation_rate_(consumer_prices).html)

<sup>11</sup> [http://www.indexmundi.com/iran/unemployment\\_rate.html](http://www.indexmundi.com/iran/unemployment_rate.html)

the teachers' statement. Teachers would instruct students, now call upon Stalin and Lennon for food and water, as hungry students were calling Stalin and Lennon names for food and water would be brought in the classroom. The above highlight was such cruelty was exercised in the Soviet Union of Socialist Republic, and wanted to bring their practice in Iran, and there were Iranians that they wanted to hand over Iran to the Soviet Union of Socialist Republic.

It was during grace of His Imperial Majesty King of Kings Reza Pahlavi the Great Province of Azerbijon went to unrest and separatists were trying to separate Iran's Azerbijon and handover it to the Soviet Union of Socialist Republic. However, His Imperial Majesty King of Kings Reza Pahlavi the Great did not allow separatists to reach to their diabolic agenda.

It was during reign of His Imperial Majesty, Light of Aryan, King of Kings Mohammad Reza Pahlavi, when His Imperial Majesty was a young King, in 1945, the Soviet Union of Socialist Republic began to assist Iran's Tudeh Party, and in this case, Tudeh Party of Tabriz under leadership of Pishavary, Be Reia (minister of education) and Golam Rayhia began to take advantage of position of His Imperial Majesty, and with arm struggle declared Province of Azerbijon as an independent state, and was reconnected to the Soviet Union of Socialist Republic's Azerbijon.

People of Azerbijon which give birth to brave and courageous leader like Satar Khan and Bagher Khan began not to tolerate the current establishment in Azerbijon, and revolted against Tudeh Party which was puppet of the Soviet Union of Socialist Republic. Pishavary was killed by Iranian people close by the Soviet Union of Socialist Republic, and one bullet strike Be Reia's leg as he hide in Tabriz's the Soviet Union of Socialist Republic hospital, and was able to flee to the Soviet Union of Socialist Republic.

Also, His Imperial Majesty Light of Aryan, King of Kings Mohammad Reza Pahlavi was not aware of the unrest in the Province of Azerbijon and already deployed the Imperial Iranian Armed Forces to liberate Province of Azerbijon.

The Imperial Iranian Armed Forces faced resistance by the terrorist Tudeh Party in city of Zanjan in Province of Azerbijon, and prevented the army to reach to Tabriz as it was expected.

Three days later after national uprising of people of Tabriz there was talk of His Imperial Majesty, Light of Aryan, King of Kings Mohammad Reza Pahlavi, as well as, the Imperial Iranian Armed Forces arrival in Tabriz and people gather by the City Hall or clock square and wanted to greet their King and the military. In this moment member of Tudeh Party used roof top of stores, and opened fire at civilian and began to murder them in cold blood randomly. During this upheaval people of Tabriz did not run away from death and bullets, but charge at the enemies on the roof tops and brought them to their destiny at once.

It was during this critical moment when His Imperial Majesty flew over the City Hall as a messenger that the Imperial Iranian Armed Forces was on its way to the Tabriz.
