Evaluating One Year Performance of Sarbazan and Janbakhtegan Organization-2008

Reflecting on one year performance of Sarbazan and Janbakhtegan Organization-2008, and recalling it very well how Madam Shirin Neshat has been working on a sensitive project to galvanize wo/men in uniform with civilian individuals to topple the regime in Iran without assistance of outsider. In this formula of removing this brute regime in Iran, it requires dedication, loyalty and commitment for emancipation of Iran, and in absent of one of above principle, it would be difficult to remove the regime in Iran.

Eventually, all pieces whether small or big came together and was decided to launched this project on December 11th, 2008 which is equivalent to Month of Azar 21st, which has historical significant. On Azar 21st, 1946 Iranian-Azeri revolted against Russian puppet rulers of Province of Azerbaijan, and chased Russian puppet rulers out of Iran, and liberated Iran from hands of Russia. The above historical fact needs to become a reminder to Iranian as one of many prime example that in past Iranian determined their own future, and today is not any different than past and Iranian needs to focus on their future, and emancipate Iran from hands of brute mullah in Iran which has occupied Iran since 1979/2538.

Madam Shirin Neshat has taken many more initiations to improve quality of life of Iranian in exile, and to reflect light on their current social and economic condition. Just to name one would be survey project which is intended to reflect light on surviving victims of Marxist-Islamist Utopia of 1979/2538 as members of Imperial Iranian Armed Forces were executed by Marxist-Islamist factions without due process.

Today, the surviving families are living in terrible economic conditions, and some of them even hardly can pay their basic necessity of life. Also, it needs to bring to attention of readers that some of these individuals are in their old ages, and require medical attention, and not having medical plan has made their life very difficult to manage. Particularly, these individuals left Iran empty hand, and today they have nothing, whatever they saved for their old age was confiscated by Marxist-Islamist factions.

The above grim reality needs to be mention to everyone in order to empower voice of victim which has been silent for too long, and now it is time to hear their voice, and voice of just justice.

Madam Shirin Neshat has prepared many more project for this up-coming year, and it will be a very exciting year for all of us.

Mullah as a Legitimizing to Abuse Ladies in Iran

Mullah is an authority figure in Iran, and it is obvious from their religious title of Ayatollah which means sign of God. This particular minority segment of the society has become ruler of the society by creating state of fear, fraud and force in Iran with intention of suppressing other members of the society and creating a submissive and obedient society. The cleric is able to bully other members of the society in Iran, and pursue them to follow their wills, when time is convenient for the cleric because the cleric is controlling every fabric of the society with their Revolutionary Guard and Besij.

Sometimes ago, Ayatollah/Sign of God Mohammad Taknodi held a service at Al-Nabi Ghazvin mosque, as he began to preach about Prophet Moses that how Moses sized and slaughtered the enemy and began to incorporate the above story into the 1979 fiasco that how Marxist-Islamist factions took over Ne-avarar Palace in Iran. As Marxist-Islamist factions began to capture wives of Imperial Iranian Armed Forces. This cleric began to elaborate how wives were divided among Marxist-Islamist factions, but nothing happened to the wives.

This cleric in a regrettable tone began to say the Revolutionary Guard and the Besij had RIGHT to touch the wives, and the cleric too had RIGHT to touch the wives , but they did not.

This deceptive cleric justified touching a lady by using Prophet Moses incident and incorporating into current affairs of Iran. Quite frankly, this cleric gave an ordain to the Revolutionary Guard, as well as, the Besij to touch ladies when they were in custody of the Guardian of the Regime.

The above incident was one more clear example how the religious figure in Iran is using religious event in their own benefit, and allowing the Guardian of the Regime to committee crimes against humanity in order to create a fearful society. Let's not forget all those sorry stories of the Guardian of the Regime would say that they were not the one who committee inhuman act, but they were brought from Lebanon to Iran to do such cruel act. Now, it is clear that the culprit is right from Iran and their source of information is the mullah of their neighborhood.

Correspondent From Iraq

Current situation of Iraq after Saddam's Regime Fall:

Nobody here in Iraq was believe that Saddam would be removed from Iraq, all Iraqis were believe that Saddam and his sons after him will keep rule Iraq forever because tyranny and oppression, Saddam applied to Iraqi people, made all Iraqis think that Saddam is permanent legend can't be removed. That Saddam tyranny and oppressing didn't exclude delineated faction or class of Iraqi people, but it included all Iraqis either Sunnis, Shiites or Kurds people, but greatest portion to this oppressing has included Shiite and Kurds because they were most hated Saddam and his regime than Sunnis who Saddam shares them with the religious belief and Arabic national thoughts for this reason, Saddam was apply to tribal racism on his people where he was prefer Sunni tribes than Shiite and Kurds tribes that's why Saddam was give preference for Sunni tribes sons in getting high jobs and positions in government, army and Iraqi companies.

There is no Iraqi family didn't catch Saddam harm or oppressing even his close family members. He has killed his two cousins who also were his two sons in law because they tried to overthrow his regime. Saddam was strict and brutal in treatment his citizens who try to disagree his opinions or thoughts. Saddam tyranny has left large psychological and social effects on public of Iraqi people especially Shiites and Kurds even that most Iraqis reached to hard state of misery and suffering they made prefer any state to come to rescue them from Saddam's regime than the bad state they were suffer under that regime regardless of intentions of that state because the oppression Iraqis met by Saddam's regime they didn't find a match like it before during their long history. So don't surprise when you saw Iraqi people receive American troops with flowers and clapping at first when they got in Iraq in April 2003 as if that these troops are their country's troops or so. Those were feelings of most Iraqis during liberation of Iraq from Saddam back in 2003.

As a normal result, that Shiite and Kurds were more receptive to getting in American forces to their cities and villages than Sunni people where more Sunni were reject at first these forces to get in or patrol their cities and villages that's why these forces were meet more attacks and resistance in Sunni areas than in Shiite areas where more Shiite areas were welcome these forces during they are performed patrols within those areas for this reason, some Saddam's loyalists residing aboard in some neighboring countries and other anti-Americans terrorist groups in Iraq used that difference between both two situations of Sunni and Shiite regarding existence that forces in Iraq to foment sectarian sedition between Sunni and Shiite which caused in kill thousands of innocents Iraqis of both sides only for sectarian identity and not for any fault or reason else.

The current security situation throughout Iraq begun improve noticeably during 2008 in comparing with the four past years that followed liberation of Iraq by US-led coalition back in 2003 due to recent military operations American Forces in conjunction with new Iraqi Forces performed leading to destroy and kill a lot of members of Al-Quada terrorist organization and loyalists of former regime, but other terrorist armed groups associated with Iran, still occasionally perform their terrorist activities against innocent Iraqis and American Forces in support and conduct from revolutionary guards or Iranian intelligence in spite of attacks and raids members of these terrorist groups face from American Forces occasionally.

Bloodless Revolution for Iran

There is no doubt that the regime in Iran must go because it does not have will and consent of Iranian to govern, which makes the state in Iran as an illegitimate state Obviously, the regime in Iran is not planning to hand over Iran to Iranian, and has been using coercive method to suppress Iranian since 1979/2538. Henceforth, this theocratic regime in Iran would escalate its brutal nature in order to create a state of fear to suppress any kind of opposition against the regime.

As the regime begins to slaughter more innocent people, it would infuriate people to defend their love one against terminally ill and illegitimate state in Iran, as people would not give-up in pursue of street justice, and

would seize every opportune moment to corner one person who is associated to the system, and eventually people would revolt against establishment at a large scale which is beyond anyone's imagination. During this upheaval time, high ranking Revolutionary Guards, Besij and Mullahs would want to flee Iran and to settle in nations that they invested stolen money from Iranian.

There is no doubt that some of them will be able to flee Iran and would reside in US, Canada, European nations, and even Dubai to cash their prizes, and there is no doubt that some of them would not be able to flee Iran because people would apprehend them, and would be seeking a swift justice. Also, there are individuals that they would flee Iran, and would be thinking for themselves that they got away with perfect crime, now it is time to be more cautious and concern because victims will be seeking street justice and would hunt them down at every corner of the world, and would shed their blood on spot.

Despite what Iranian people have been enduring since 1979, Iranian must not shed one drop of blood in order to protect their assets in foreign nations. Obviously, these foreign banks, and nations that they gave permission to them to invest their stolen money from Iranian in their countries, they were predicting such a day would come as people would revolt against their iron fist rulers and would kill them. Obviously, deceased assets in foreign nations would be transfer to the states, and banks would not report such assets to anyone, and the assets would become property of banks. Thus, it would be prudential not to kill anyone in order to protect assets of Iranian in foreign nations. Most importantly, Iranian need to handover accused individuals to the United Nations so that the United Nations try them before their own legal remedy, and the United Nations decides for fate of these entities, so in future Iranian would not be blame for violation of human rights. After all, the United Nations is very sensitives toward rights of dictators, and let the United Nations to do whatever it would like to do with the accused person, as long as, the bad guys are out of Iran, and Iran would become a free nation.
