## IN THE NAME OF MY FATHER

---

We never give-up, never surrender, and we must go home, it is our destiny. We are proud Iranian, we will defeat our enemy and will prevail our enemy as our parents did, and we shall do it.

## Newspaper for Month of July 2008 Issue

### **Dedicated:**

This month's paper is dedicated to Unsung Heroes that they faced cruelty of Marxist-Islamist riot of 1979 and their families felt huge losses in their life and nothing would be able to illustrate their excruciating pain that they have been going through in this life.

### **History of Monarchy in Iran Zamin:**

Founder of Iran Zamin is Cyrus the Great, Part Four:

There were three accounts on how Cyrus the Great passed away. First, account was provided by a physician and Greek historian Ctesias. Second, account was provided by Greek historian Herodotus and last account was provided by Xenophon.

According to the physician and Greek historian Ctesias, Cyrus the Great waged war against north-east of the headwaters of the Sry Darya river<sup>1</sup> Herodotus provided more detail event of the war which took place in modern-day “[Kazakhstan](#) and [Uzbekistan](#), following the advice of [Croesus](#) to attack them in their own territory”<sup>2</sup> which was ruled by queen Tomyris.

Cyrus the Great wanted to acquire her land and asked her hand for marriage and she turned down the His offer. Cyrus the Great began to build bridges and towers between Sry Dara river. Queen Tymoris warned Him that His action would not be tolerated. Cyrus the Great did not listen to the queen. Eventually, the queen invited Him for a combat which was one day march from the river.

Cyrus the Great learned that the native people did not know anything about wine, and he seized the opportunity by setting up a camp and left behind wine for the enemy to consume. The native people consumed the wine and became intoxicated. Cyrus the Great launched assault, and killed 1/3 of the army and the queen’s son Spargapises committed suicide, when he became sober and aware of the current situation of the army. The queen became angry and wanted Cyrus the Great’s blood.<sup>3</sup> Eventually, Cyrus the Great’s army was defeated and Tomyris ordered body of Cyrus the Great to be brought before her, and His body was decapitated and His head was dipped in a blood as a fashion of illustrating that she took revenge of her son.

Last, Xenophon had total different account than above historians that Cyrus the Great departed from this world peacefully in comfort of His family. According to Xenophon, Cyrus the Great slept on His bed and passed away from this world. There was no bloodbath or any kind of discomfort. There was one matter of fact that He rested in peace in Pasargadae, and if He was killed in [Kazakhstan](#) which was far away from Pasargadae it would be impossible to bring His body from Kazakhstan to Pasargadae. Thus, it would be reasonable to come to natural conclusion that He died from natural cause and rested in peace in Pasargadae.

<sup>1</sup> [http://en.wikipedia.org/wiki/Cyrus\\_the\\_Great](http://en.wikipedia.org/wiki/Cyrus_the_Great)

<sup>2</sup> [http://en.wikipedia.org/wiki/Cyrus\\_the\\_Great](http://en.wikipedia.org/wiki/Cyrus_the_Great)

<sup>3</sup> [http://en.wikipedia.org/wiki/Cyrus\\_the\\_Great](http://en.wikipedia.org/wiki/Cyrus_the_Great)

The moral of the story would be that Cyrus the Great was founder of Iran Zamin and He was a legend which required especial attention about His final moment. However, there was no account of His last minute and Iranians had to rely on others to learn more about Him. Let's secure the future from discrepancy and not allowing individuals for their own personal glory and financial gains to distort contemporary history like event of 1953 which shaped Iran's politics. Iran is ours, and let's preserves it.

### **Recent Events:**

#### Iranian Monarchist Warned the West about Diabolic Agenda of Islamist

On October 20<sup>th</sup>, 2006 Mark STEYN from Macleans magazine published an article from a book "*America Alone*". STEYN wanted to give a wake-up call to the Western nations that there was an ever growing threat from Muslim who were residing in the West, and at some point in future that the Muslim would dominate the Western nations due to lack of low fertility rate among non-Muslim while there was high birthrate among the Muslim. The Macleans magazine reported that one imam/leader in Norway asserted that "we're the ones who will change you," the Norwegian imam Mullah Krekar told the Oslo newspaper Dagbladet in 2006. "Just look at the development within Europe, where the number of Muslims is expanding like mosquitoes. Every Western woman in the EU is producing an average of 1.4 children. Every Muslim woman in the same countries is producing 3.5 children." As he summed it up: "Our way of thinking will prove more powerful than yours."<sup>4</sup> Also, Mark STEYN made an indirect remark that, as long as, the Western values were undermined by the Muslim like "in London, a judge agreed to the removal of Jews and Hindus from a trial jury because the Muslim defendant's counsel argued he couldn't get a fair verdict from them. The Church of England is considering removing St. George as the country's patron saint on the grounds that, according to various Anglican clergy, he's too "militaristic" and "offensive to Muslims." They wish to replace him with St. Alban, and replace St. George's cross on the revamped Union Flag, which would instead show St. Alban's cross as a thin yellow streak.

In a few years, as millions of Muslim teenagers are entering their voting booths, some European countries will not be living formally under sharia, but -- as much as parts of Nigeria, they will have reached an accommodation with their radicalized Islamic compatriots, who like many intolerant types are expert at exploiting the "tolerance" of pluralist societies. In other Continental countries, things are likely to play out in more traditional fashion, though without a significantly different ending. Wherever one's sympathies lie on Islam's multiple battle fronts the fact is the jihad has held out a long time against very tough enemies. If you're not shy about taking on the Israelis and Russians, why wouldn't you fancy your chances against the Belgians and Spaniards?"<sup>5</sup>

<sup>4</sup> [http://www.macleans.ca/article.jsp?content=20061023\\_134898\\_134898&source=srch](http://www.macleans.ca/article.jsp?content=20061023_134898_134898&source=srch)

<sup>5</sup> [http://www.macleans.ca/article.jsp?content=20061023\\_134898\\_134898&source=srch](http://www.macleans.ca/article.jsp?content=20061023_134898_134898&source=srch)

Quite frankly, the above highlights of Mark STEYN was no news for Iranian monarchist, and Iranian monarchist has been informing the Western nations about Islamic fundamentalist domination of the West from time the cleric regime was incepted in Iran, and there was only one culprit to blame for which was the West itself for masterminding of 1979 fiasco in Iran and causing disorder in Iran during reign of His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI I.

In March 1974 His Majesty stated that oil was a scarce commodity and would not be wise just to burn oil as a sole source of generating electricity or other means, it should be used wisely. His Majesty believed “petroleum is a noble material, much too valuable to burn.”<sup>6</sup>His Majesty decided to limit supply of oil and encouraging the Western nations to seek alternative source of energy. However, the Western nations did not share His vision, and the Western nations engineered His removal from Iran when former US President Jimmy CARTER began to outcry that there was human rights violation which did not have any kind of merit and it was meant to generate social disorder in Iran, and there was ancient fox of England which relied on BBC to spread propaganda in Iran that how His Majesty was plundering Iran’s wealth and there was no rest on wicked. France decided to provide a nest for Khomeini HENDI in [Neauphle-le-Château](#). There were other culprits to take blame which was beyond scope of this paper.

Khomeini would have the BBC mike and was creating distraught in Iran while Iranian Imperial Armed Forces were instructed by head of state not to use force, and public were becoming more defiance in their outlaw activities in Iran. Eventually, His Majesty left Iran in order to stop blood shed. The US got a good deal out of 1979 fiasco in Iran, price of oil collapsed from \$37.00 US per barrel to \$8.00 US per barrel, and Iran no longer was purchasing military arsenal at market value. Iran was buying arsenal at black market value which turned out the US was selling arsenal to the cleric regime directly at high price. The US and other Western nations were enjoying their conquest in Iran, and Khomeini HENDI once a while was appearing on television and was saying that he would export his revolution to the Western nations and doom days has begun in the Western nations. The Western nations did not take Khomeini’s threat seriously. However, the monarchist did, and at every occasion the monarchist would warn the West about epidemic of Islam as a threat to the West. The West decided to ignore the monarchist advice and focus on good times which was short lived.

Still, to this very day, the Western nations have decided to flirt with the establishment in Iran. Just to illustrate the above point, it would be Canada as a prime example which was making backroom hug and kisses with the establishment in Iran. The cleric regime has an office in Canada which was called Iran Canada Business Council; this council was acting as a liaison office between the cleric regime in Iran and Canada. On the surface, the above council was making business trade between Iran and Canada. However, Iran Canada Business Council was used as a networking ground between Iran and Canada. The above council has municipal, provincial and federal politicians on their payroll, and was controlling Canadian politics. For example, Mayor of Toronto David MILLER was receiving a campaign contribution from Ahmad Reza TABRIZI, who was an element of

---

<sup>6</sup> [http://en.wikipedia.org/wiki/Nuclear\\_program\\_of\\_Iran#1950s\\_and\\_60s](http://en.wikipedia.org/wiki/Nuclear_program_of_Iran#1950s_and_60s)

the cleric regime in Canada. Obviously, TABRIZI was influencing local politics for benefit of the cleric regime. Furthermore, Mullah Rafsanjani was well known international terrorist owned 49% of HWY 407 in Ontario which was contrary to section 83.03 Criminal Code of Canada, and how many journalist investigated above variables and reflect light on the situations? No one, everyone decided to be silent and not losing her/his position in the major media outlet.

The Canadian media was controlled by the cleric regime, just a case to point, at every opportunity, the National Post was raising profile of Shirin EBADI that she was a mouthpiece of the cleric regime in the West by publishing articles about her as a champion of human rights, and this was a champion who lived in Canada for three consecutive years and earned her Canadian citizenship and was not speaking English at all! Who was she defending for past three years in Iran? Also, she was ushered from one university to another university and doctoral was given to her as if doctoral would go out of fashion very soon.

All in all, the Western nations needed to accept the very basic fact that they made a huge mistake for causing 1979 fiasco in Iran, and today's reality was never would happen, and 9/11 would not happen if the West did not mastermind removal of His Majesty from Iran, and to make the matter worst, the Western nations decided to flirt with the element of the cleric regime in their own countries, and when the monarchist informed the Western nations not to associate with the cleric regime of Iran, the Western politicians were blinded with campaign contribution, and forgot their duty to their own countries. Now, the West was going to enjoy fruit of their wicked acts, and there was no chance to revert the situation because still the West was sleeping in beauty.

### **Articles:**

#### What Did Happen on 18 Tir?

Iran is a rich country due to abundant of natural resources, and these natural resources were generate substantial amount of revenue for Iran and since His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI I made Iran to become an independent nation, and no longer was under control of Britain or Russia, Iran's economy was blooming, and Iranians were enjoying high standard of living.

As Iran was making progress, the other countries like France, Britain, and US became jealous about Iran's positive progress because those above nations knew well that Iran would become one major power player. The above nations did not want to share political realm with Iran. As democrat President John F. Kennedy set the tone against Pahlavi Dynasty, and Jimmy Carter finished dirty deal of Kennedy to halt Iran from progress.

Carter's ill intention became clear when he wanted His Majesty to the White House, and Carter orchestra student demonstration against His Majesty. In fact, those were not students, they were bunch of outlaws that they were running around and causing social

disorder. Eventually, France, Britain, and US inspired Khomeini HENDI, Bazargan, Sanjaby, MEK and other Marxist-Islamist to create the 1979 fiasco in Iran.

His Majesty left Iran due to violent behavior of naïve public, and Iran was left in hands of brave Iranian Imperial Armed Forces to protect Iranians from their own destructive behavior. It was during this fateful moment, when Iranian Imperial Armed Forces contemplated an uprising to stop the cleric regime from destroying ancient land of Persia. It would be reasonable to come to natural conclusion that the event of 18 Tir was hatched because the US predicted that Iranian Imperial Armed Forces would stage an uprising and planted mole among Iranian Imperial Armed Forces, and in this case, the 18 Tir became fruitless.

Let's remember the MEK, Tudeh Party and other Marxist-Islamist groups went bombastic on apprehension of Iranian Imperial Armed Forces and executed as many as the Marxist-Islamist could.

As a result, 18 Tir of each year is a national remembrance day for Iranians, a day to remember that Iranian Imperial Armed Forces fulfilled its allegation to King of Kings Mohammad Reza PAHLAVI, and Iran. Let's remember that it was not the individuals of 18 Tir uprising who failed to reach to their final destination, it was a nation that it failed to grasp the hard labor of love of Iranian Imperial Armed Forces for their King and Iran that for past 29 years Iranians were struggling for freedom, safety, security, peace and prosperity. Thus, those individuals took part in 18 Tir uprising were true lovers of the King, Iran and Iranians; Ahura Mazda blesses their soul in paradise.

#### Child Soldier:

The Islamic Republic of Iran was incepted on notion of Imam Hussein martyrdom. Imam Hussein was third grandson of Prophet Muhammad and son Imam Ali. Imam Ali was married to daughter of Muhammad with name of Fatimah. There was a dispute among potential leaders that who was qualified enough for leadership role after departure of Prophet Muhammad which created Sunni and Shiite sect, which is beyond scope of this product. Coming to point of Imam Hussein martyrdom that he “was killed and beheaded in the [Battle of Karbala](#) in 680(61AH) by [Shimr Ibn Thil-Jawshan](#) for refusing to pledge allegiance to [Yazid I](#), the [Umayyad](#).”<sup>7</sup>

When Iran and Iraq War broke-out, the cleric regime began to capitalize on concept of Imam Hussein martyrdom that how he waged war against [Yazid](#) with his 72 followers. Apparently, Imam Hussein had a vision that he was going to be killed in the battle Karbala, and despite his vision or some kind of mystic divine, he went to battle field and was killed by his foe.

The cleric was motivating young people to go to combat zone, and die like Imam Hussein, and after life there were going to be 72 virgins to greet them! It appears that as if Ahura Mazda has nothing else to do but to make 72 virgins for a martyr everyday. It

---

<sup>7</sup> [http://en.wikipedia.org/wiki/Husayn\\_ibn\\_Ali](http://en.wikipedia.org/wiki/Husayn_ibn_Ali) February 23<sup>rd</sup>, 2008. PG 01

just illustrated the cleric's mentality that a mullah is always thinking with his lower body. The cleric needed individuals to go on landmine and explode the landmine. The cleric invented story of Hussein FAHMEDEH. The cleric regime relies heavily on propaganda machine. The cleric regime was airing program in their mass media that there was a teenager with first name Hussein and last name FAHMEDEH who came from one of remote village of Iran took the bus and went to Province of Khuzestan where there was a no man land. Hussein found a grandee, and saw five Iraqi tanks, and with one grandee exploded all five tanks. Interesting, a grandee would not make a dent on tank, and the bizarre idea of one grandee exploded five tanks was someone's wild imagination. The above story was appealing to people and was able to recruit young and fresh mind to combat zone so that they would clear the landmines and in return these child soldier would meet their prize which was 72 virgins. {The cleric have fix mind, everything is 72!}

These teenage boys would be deployed to combat zone, and when there were behind action zone, and all Revolutionary Guards were hanging behind action zone would sexually assault these teenage boys, and no humanitarian organization ever reported the Revolutionary Guard brutality. Perhaps in their mind it did not fit in their mission statement to report Revolutionary Guard brutality.

“The first modern use of child soldiers in the region was actually during the Iran-Iraq war in the 1980s. Iranian law, based on the Koranic sharia, had forbid the recruitment of children under 16 into the armed forces. However, a few years into the fighting, the regime began to falter in its war with its neighbor, Saddam Hussein's Iraq. So it chose to ignore its own laws, and in 1984, Iranian President Ali-Akbar Rafsanjani declared that “all Iranians from 12 to 72 should volunteer for the Holy War.” Thousands of children were pulled from schools, indoctrinated in the glory of martyrdom, and sent to the front lines only lightly armed with one or two grenades or a gun with one magazine of ammunition. Wearing keys around their necks (to signify their pending entrance into heaven), they were sent forward in the first waves of attacks to help clear paths through minefields with their bodies and overwhelm Iraqi defenses. Iran's spiritual leader at the time, Ayatollah Khomeini, delighted in the children's sacrifice and extolled that they were helping Iran to achieve “a situation which we cannot describe in any way except to say that it is a divine country.”<sup>8</sup>

Recently, the cleric regime gave an award to family of Hussein FAHMEDEH, these folks appear to face economic hardship and would welcome any charity from anyone, but what makes Hussein FAHMEDEH invention of the cleric because Hussein in Shiite doctrine stands for injustice despite someone owns demise and FAHMEDEH in Persian language means “understood”. Thus, Hussein understood meaning of Imam Hussein martyrdom.

#### History of Nuclear Proliferation in Iran. Part 2/2:

After 1979 fiasco in Iran, there was another whole set of problems for Iran that Iraq invaded Iran and the cleric regime came to conclusion that Iran needed bigger muscle to crush the Iraqi force during conflict. In 1983 the cleric regime informed the International

---

<sup>8</sup> <http://www.brookings.edu/views/articles/fellows/singer20051215.pdf> February 23rd, 2008 February 23<sup>rd</sup>, 2008 PG 05

Atomic Energy Agency {IAEA} about its plan for developing nuclear programs in Iran. The IAEA welcomed the cleric regime's plan of developing nuclear program in Iran and provided assistance to the establishment to develop nuclear program in Iran. However, the establishment in Iran faced the US resistance which blocked the cleric regime from obtaining nuclear program.

France refused to give enriched uranium to the cleric regime in solidarity with the US decision for blocking the cleric regime from obtaining nuclear program. Plus, the cleric regime did not get back investment from European Gaseous Diffusion Uranium Enrichment {Eurodif} which was formed in 1973 among France, Belgium, Spain and Sweden. Thus, the cleric regime decided to rely on use of force to collect its debt from France. The militant Hezbollah took French citizens as their hostage. France President Francois Mitterrand still refused to reimburse its debt to the cleric regime or trying to give enriched uranium to the cleric regime. Interestingly, France claimed \$1 billion, and in 1986 the cleric regime assassinated Eurodif manager Georges Besse.

In 1991, France decided to pay \$1.6 billion to the cleric regime, and the cleric regime did not want France's enriched uranium.

In 1987-88 Argentine signed three agreements with the cleric regime to "help in converting a nuclear reactor in Tehran so that it could use 20%-enriched uranium and indicates that it included the shipment of the 20%-enriched uranium to Iran The second and third agreements were for technical assistance, including components, for the building of pilot plants for uranium-dioxide conversion and fuel fabrication Under US pressure, assistance was reduced, but not completely terminated, and negotiations with the aim of re-establishing the three agreements took pace from early 1992 to 1994."<sup>9</sup>

In 1990's Russia formed an organization with the cleric regime which is called Persepolis to do research on nuclear program in Iran. There was one Russian defector with name of Stanislav Lunev, who claimed that the Russia stole Western technology to assist the cleric regime to obtain nuclear program.

Last, it was in 1996 when the US convinced China to withdraw its assistance to the cleric regime to develop nuclear program. However, China provided blueprint to the establishment in Iran with basic knowledge about nuclear program.

End

### **Golden Days:**

#### Memoirs of a Soldier:

I wanted to join the Iranian Imperial Armed Forces since I was a youth because I had profound affection toward my country and wanted to serve my country with all my heart

---

<sup>9</sup> [http://en.wikipedia.org/wiki/Nuclear\\_program\\_of\\_Iran#1950s\\_and\\_60s](http://en.wikipedia.org/wiki/Nuclear_program_of_Iran#1950s_and_60s)

and mind and when I was attending University of Tehran, I joined the infantry, and after 30 years of service for my country, now I am with clear conscience and mind that I served my country, and hoping my country Iran was satisfy about my performance.

Continue....

#### Behind Every Successful Man, There Is a Strong Woman:

I married a military officer because he was an honest man, who did not steal anything from anyone to make living, even life was tough on us financially, and there were times that we could not afford to buy basic necessity of life but still we managed to live. It was not just us that we had difficult times, there were other families too that they were enduring tough times to manage their life. I am always proud of my husband who served his country with utmost love. However, people did not understand the Iranian Imperial Armed Forces.

Continue...

#### **Feelings:**

##### Feeling Pain:

Feeling pain these days for Iran and Iranians when hearing US and Israel are contemplating a pre-emptive military strike on nuclear facilities in Iran, which is wrong because when the US and Israel are going to drop bombs on the nuclear facilities, those bombs are going to explode under ground nuclear facilities that they are having nuclear capability and are going to set off underground nuclear explosion. Once, the nuclear explosion accrue, there would be earthquake due to underground nuclear explosion, and radioactive materials would begin to travel on soil and land would be containment with radioactive materials, and land would be not be use for any purpose any more. It would be disaster to witness that a town is evacuated and has become a ghost town because of underground nuclear explosion, and cosmopolitan cities of Iran have crumbled on top of each other, and Iranians are pulling one dead body after one another so the cleric would be feeding their super ego of having nuclear power.

Therefore, the answer to the cleric regime's nuclear power is not bombing Iran, it is about assisting Iranian dissidents to liberate Iran with their own hands so power and glory would be their. In event, the nightmare of bombing Iran would become a reality; it would become such a pain which would not be forgotten by any measure as if my own father was taken away from our family unjustly. This feeling of pain for father has been around for past 29 years and it is not healing whatsoever. So let's not destroy Iran which is only hope for any Iranian to save Iran from hands of savage mullahs.

## Father and Son:

The 19<sup>th</sup> Century was a tough time for Iran as Russia was encroaching Iranian territories because Iran did not have well organized military forces to repel the aggressor out of Iranian territories. Subsequently, Iran was forced to sign Treaty of Gulistan (1813) and Treaty of Turkmanchai (1826) and handing over large portion of Iranian territories to the Russia. Also, the Russia was in position to annex Iranian territories because head of state of Iran like Nasir Din Shah was preoccupied with concubines, and extravaganza trips to European nations and were not illustrating any kind of interest or concern about affairs of Iran. It was during this crucial moment, British Empire decided to expand its domain in Central Asia, and the Britain reorganized Iranian Armed Forces of Qajar dynasty as a counter measure to prevent the Russian army from expanding its domain any further on the Iranian territory which meant the Britain and the Russia were in a proxy war without facing one another. Hence, the above event was marked as “The Great Game” by a British Intelligent Office Arthur Conolly and a British Novelist Rudyard introduced the “The Great Game” notion in his “*Kim*” novel.

Iran wanted to reclaim Afghanistan which lost it during Safavi dynasty (1501-1722). As a result, Iran's agenda of reuniting Iranian territory lead to “The Anglo-Persian War” between Iran and the Britain. On November 01<sup>st</sup>, 1856 Iran and the Britain military forces clashed at each other which was ended on April 04<sup>th</sup>, 1857 in favor of the Britain.

Eventually, the Britain and the Russia came to consensus to strangle Iran, and divided Iran on two political spheres. One, the northern part of Iran was controlled by the Russia, and last the southern part of Iran was controlled by the Britain. Consequently, Iran's sovereignty was undermined by the super powers, and Iran's royal court was doing favor to the British and the Russian, and Iran's needs were ignored at best.

It was during the above turmoil and chaotic circumstances that a brave man with name of Reza Savad Kooch stepped in and saved Iran from falling apart and made Iran an independent nation-state, and His son Mohammad Reza PAHLAVI inherited the Pahlavi dynasty which was according to political culture of Iran and continued His father's path toward independence and modernization of Iran. The aim of this paper is to discuss briefly role of Reza Savad Kooch in shaping Iran's political affair and His son Mohammad

Reza PAHLAVI as He inherited the Peacock Throne and moved Iran toward Great Gate of Civilization, and briefly examining aftermath of 1979 fiasco in Iran.

On March 15<sup>th</sup>, 1878 Reza Savad Kooh opened his eyes in this chaotic world and not knowing what was awaiting for him, and as he grew older he began to follow same foot step as his father and joined Persian Cossack Brigade at age of sixteen. He illustrated leadership during course of his military service, and moved upward the military rank very quickly, and earned nickname Mir-Panj.

He had profound feelings toward Iran, and must have inflict sever pain on him to witness that Iran's sovereignty was undermined by the Britain and the Russia, and found himself obligated to stage the coup d'etat of 1921. He marched in capital city of Tehran, and there was a minor skirmish which resulted in a few collateral damages. He recognized Ahmad Shah as head of state of Iran, and Reza Mir-Panj took part in parliament. Eventually, Ahmad Shah decided to leave Iran to Europe, where he was preoccupied with fancy life style, and in October 1925 Reza in parliament called for the king's expulsion as head of state of Iran. The parliament ejected the king as head of state of Iran. Reza Mir-Panj proposed republic system as a form of state in Iran. However, cleric like Hassan MODARRES and Dr. Mohammad MUSSADIQ opposed Reza Mir-Panj's proposal. On December 12<sup>th</sup>, 1925 Reza Mir-Panj nominated himself as a king of Iran within guideline of Constitutional Monarch, and the parliament elected him as the King of Iran. Reza adopted last name Pahlavi which was name of ancient language of Iran, and established Pahlavi dynasty in Iran. He quickly began to modernize Iran by building Trans-Iranian Railway which was from southern part of Iran close by Persian Gulf, and was ended to northern part of Iran, and He established University of Tehran, so Iran would be managed by Iranian. There was a controversy about His policy toward women's head scarf. His Majesty took side with feminist movement of “Women's Awakening”, and His Majesty emancipated Iranian ladies from head scarf, and law enforcers were ordered to remove woman head scarf in public areas.

In 1931, His Majesty took firm stand on Iran's oil with the Britain and canceled oil concession with the Britain which was due to expired in 1961, and He demanded for 21% of shared profit. Eventually, this oil dilemma made its way to League of Nations and His Majesty won the court, and the Britain acquiesced. His Majesty knew very well not to rely on one single entity as a source of technology and advancement of Iran. Thus, He relied on Dr. Arthur Millspaugh, who was from the US and acted as the nation's Finance Minister. His Majesty did not allow the Britain to use Iran's airspace for commercial use instead He allowed Germany's Lufthansa Airlines to use Iran's airspace. In addition, His Majesty allowed advanced German technology to come to Iran and to develop Iran's technology. Also, His Majesty purchased ships from Italy and Italian naval trained Iranian Imperial Navy. Most importantly, His Majesty also prayed to Torah, when He was visiting in city of Esfahan, and Jewish community observed Him as their second Cyrus the Great. As a result, Iran was making great progress toward industrial modernization and His Majesty cut off hands of the Britain and the Russia from Iran. Iran no longer was for sale which was the message for the British and the Russia and they were looking for thrill and reliving the Great Game over and over at expense of Iran's sovereignty.

On August 21<sup>st</sup>, 1941 the Britain and the Russia falsely accused Iran of collaborating with Nazi Germany, and invaded Iran. His Majesty abdicated the Peacock Throne in favor of His son Mohammad Reza PAHLAVI. On September 16<sup>th</sup>, 1941 His Majesty Mohammad Reza PAHLAVI inherited the Peacock Throne and Iran was devastated by the unjust war.

His Majesty, King of Kings Reza PAHLAVI the Great was forced to exile and forced to live in Johannesburg, South Africa, and on July 26<sup>th</sup>, 1944 due to heart problem He departed from this world.

This portion of the paper is briefly discussing His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI's contribution to Iran, who was moving Iran toward Great Gate of Civilization. This great man of honor opened his kind eyes on October 26<sup>th</sup>, 1919, and at very young age He became guardian of Iran, and because Iran's parliament was composed of bunch of sell-out to the Britain and the Russia, it was difficult for Iran to make any kind of progress.

In 1961 His Majesty stated in His book "*Mission for My Country*" that He wanted to transform the process of the state as a machine which would manage affair of the state without having anyone to deal with the issues on day to day basis. Eventually in 1963 His Majesty called for a national Referendum and asked Iranian to cast their vote on His proposal of White Revolution which had six points.

1. Abolishing feudal system, and serf became land owner.
2. Nationalization of forest and pasture lands.
3. Privatization of the Government owned enterprises.
4. Profit sharing
5. Extending the right to vote to women
6. Forming of the literacy corps.

Iranian people went to polling station and gave their consent to the above Referendum, and His Majesty executed the White Revolution. However, Khomeini HENDI from religious spectrum and left wing groups like Tudeh party did not like the White Revolution and staged riot in Iran. Consequently, as Max Weber stated that a state had natural right for self-preservation, and would use force to create social order which was in this case too, and Khomeini HENDI was apprehended by authority and went to exile and finally Khomeini resided in Najaf, Iraq.

The above six principles of His White Revolution was contributing to Iran's progress and prosperity. As a result, His Majesty began to expand on His White Revolution by adding more useful key component to His White Revolution; such as, 7. Formation of the health corps, 8. Formations of the reconstruction and development corps, 9. Formation of the house of equity, 10 Nationalization of all water resources, 11. Urban and rural modernization and reconstruction, 12. Didactic reform, 13. Workers' right to own shares in the industrial complexes, 14. Price stabilization, 15. Free and compulsory education, 16. Free food and needy mothers, 17. Introduction of social security and national

insurance, 18. Stable and reasonable cost of renting or buying of residential properties, and 19. Introduction of measures to fight against corruption.

His Majesty's hard labor was not limited to the above highlights, as a matter of fact, He worked diligently for Iran, and made many sacrifices for Iran to progress. In 1950's His Majesty believed fossil fuel was a limited natural resource and needed to be use with extra care. So, He asked the US, France and other well established European nations to assist Iran to develop nuclear programs in Iran with intention of generating electricity, which was welcomed by the above nations, and were given top of the line technology to Iran to possess nuclear programs.

His Majesty recognized State of Israel, and Iran refrained from taking part during six days of war with Israel. His Majesty was a peaceful person and did not find war as a proper measure to resolve issues, which was the case when Iraq wanted to control Arvand Rood. His Majesty was in military position to capture Iraq less than six hours, but He believed it would be too costly due to death of even one innocent soldier. His Majesty used political maneuver and deployed Iranian Imperial Armed Forces by Iraq border, and made it clear and crystal that Iran was ready to charge at enemy. Eventually Saddam Hussein came to his senses and peace was made between Iran and Iraq without making any mother shed tears for her son.

In October 1971 His Majesty celebrated twenty five hundred years of monarchy in Iran by inviting dignitaries from other nations to Iran by holding a ceremony in Persepolis. Interestingly, back in ancient times of Iran, Iranian monarchs would be greeted by dignitaries in the Persepolis during ceremonies. Thus, His majesty repeated the same history, as dignitaries from other nations greeted head of state of Iran, and at this time Iran was at pinnacle point, and no longer a nation for sale.

His Majesty drafted safe HWY plan for Iran so heavy duty equipments, as well as, large vehicles would use their own designated HWY and sedan vehicles would use their own HWY which would reduce fatality rate during crash. When European nations needed financial assistance, His Majesty would give loan to France or other nations, or when Concord Airplane on brink of bankruptcy, His Majesty was their to help the Concord Airplane and not allowing employees of Concord to become unemployed and families would become destitute. He also took part in given loan to African nations to rebuild their shattered economy and building rail way in order to rejuvenated their economy. Most importantly, the Middle East was in peace.

His Majesty's contribution to Iran was not exclusively to the above highlights. The above highlights were some of them which were feasible to mention in this paper and was not meant to be an analyst of each and every of His contribution to Iran and other nations. However, the world did not appreciate Him and His good story had to come to a bitter end by Jimmy Carter from democrat party of the US and the BBC.

In 1979 His Majesty left Iran because the democrat party of the US Jimmy Carter was elected as President of the US. He wanted cheap oil from Iran, and Iran was interested to

use oil frugality, and the British wanted to play the New Great Game in the region, and instigated public against their King. Public thought in their la la land that they will make financial gain, but as time passed by public noticed that they lost everything that they had which was due to His Majesty's leadership.

This portion of the paper is briefly examining aftermath of 1979 fiasco in Iran. The cleric regime began to eliminate any kind of threat, and opened butcher shop in their dungeons, and executed Iranian Imperial Armed Forces in cold blood. The theocratic regime in Iran provoked Shiite Muslims in Iraq by asking the Shiite Muslims to revolt against Saddam Hussein which gave Saddam Hussein all the reasons to invade Iran. The cleric dragged the war for eight years which claimed countless lives of innocent people. Eventually, the war came to an end as Iran lost the war. The cleric regime was same as the Qajar dynasty. The cleric began to bribe the Western nations to prolong their longevity in Iran by forming lobby groups in Western countries.

In Canada, there was Iran Canada Business Council and ring leader was Ahmad Reza Tabrizi, who had Canadian politicians on its payroll of the cleric regime in name of political campaign contribution. Furthermore, mullah Rafsanjani was investing money in Canada by building HWY 407, or Center Point Mall, and Iranians were deprived from economic prosperity. In the US, there was National Iranian American Council. This council was managed by Tirita Parsi, who was acting in best interest of the cleric regime in legislative body of the US, and there was National American Council under leadership of Hooshang Amir Ahmadi who was spreading propaganda about the establishment in Iran as a misunderstood entity by outsiders. The cleric regime formed other entities like Network Iranian American Professional Orange County {NIPOC} and IMAN Foundation which were agencies of the cleric regime to recruit youth in university campuses and making sure these youth would gain position in the system and would advance interest of the cleric regime in close future.

In conclusion, in 19<sup>th</sup> Century Iran's sovereignty was undermined due to the Great Game of the Britain and the Russia. During this critical moment Reza Savad Kooch emerged on the scene of politics and saved Iran from strangling, and He modernized Iran's technology. However, the Britain and the Russia wanted to strangle Iran and decided to invade Iran, as they did. Eventually, His Majesty Mohammad Reza PAHLAVI inherited the Peacock Throne of Iran which was according to political culture of Iran, and as He made great progress in Iran while price of oil was below \$10.00 US per barrel and during couple of years before His departure from Iran, He brought the price of oil to equilibrium price which was \$39.00 US. Nowadays one barrel of oil would be somewhere to \$150.00 US and would be educated guess that 90% of Iranian were living under harsh economic condition and by saying living below poverty line really did not make sense, these 90% of population were working and still they could not meet the demands of their life. The cleric regime was funneling money in the West and were given to their agents to buy politicians in the name of political campaign contribution, or investing in real estate business or construction industry while Iranians were deprived from economic prosperity. In fact, the cleric regime by given money to the Western nations, the Western nations

would be pursue to ignore murdering Iranian Imperial Armed Forces in cold blood during early stage of 1979 fiasco in Iran which was direct violation of human rights.

Thus, the Father and Son built an independent and modernized nation-state in Iran which was moving toward Great Gate of Civilization and same ungrateful people back stabbed their loyal and best friend and their own King in their la la land to lower price of oil and better themselves financial and now they reached to their mirage land which was predicted in HisMajesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI's book "*Answer to History*" that price of oil per barrel would be way above of \$60.00 US and Russia would control the Middle East region which was the case today.

Obituary:

Sarbazan Organization takes this moment and expresses the deepest sorrow and sympathy to Her Majesty, Queen of Queens Farah PAHLAVI, His Majesty Reza Shah II, Princess Farahnaz and Prince Ali Reza PAHLAVI for their loss His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI I on July 27<sup>th</sup>, 1980.

*Taghdir Nameh Taghdemi be Darajeh Daran-e Artish Shah-hanshahi*

Sarbazan organization would like to take this golden moment in 18 Tir to remember and to salute all Honorable Immortal Sergeants/*Darajeh Dar* whether they took part in 18 Tir

uprising or not and they gave their precious life for His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI and Iran without second thought, and their hard labor shall become a pillar for others to remember that freedom of Iran is a primary duty of every Iranian from hands of savage mullahs.
