

Norooz's immortal fire:

Norooz will keep emit in our inner the hope and renew us the life. Norooz will keep come every year to cover the earth with spring's green carpet. Iranians will keep every year look out eagerly Norooz to celebrate and renew their live with the hope and love. Norooz is the grace of Ahura Mazda to Iran and Iranians. Whatsoever barbarian mullahs try to extinguish Norooz's immortal light in Iranians' hearts, so, that they couldn't. the day will come which will shine of it a Norooz's glowed sun to eradicate night's darkness evil invaders wanted to make it a permanent dress to this great land, land of Ahura Mazda and great Zartosht. Whatsoever darkness of that night lasted with its blackness and depression, so, that sun will shine again and remove the nests of bats who love to build their houses under the darkness of that black night. Iran will keep sing to Norooz coming and renew the hope with its young generations towards the freedom and breaking bondage shackles Islamist invaders wanted of to enslave this great land and its great people, but land of Ahura Mazda will never surrender to those barbarian invaders and will defeat them. Norooz will keep a crown over Iranians heads and prominent feature distinguishes them from all world's other peoples. Norooz's fire will keep glow and emit in Iranians hearts the warm and hope in the new future.

Sincerely Yours,
