Ray TAKEYH {ری تکیه} Misinforming Public on Nuclear Mullah in Iran

Ray TAKEYH was born, in 1966, in Tehran, Iran, and earned his Bachelor of Arts from University of Tehran<sup>1</sup> and in 1997 he earned his doctorate from St. Antony's College, Oxford University.<sup>2</sup> He is another prime example of one of those PhD ranks that they sell Iran for Marxist-Islamist cause of mullah.

On Sunday May 18<sup>th</sup>, 2008 Ray TAKEYH published an article on Washington Post with title of "*Shaping a Nuclear Iran: The West's Diplomatic Goal Needs to Move From 'Suspension' to 'Transparency'*." In the above article TAKEYH attempted to convince the West to negotiate with the illegitimate state in Iran, and he curtailed on areas that the cleric regime has diabolic plan of having nuclear facilities, he also defined the cleric regime as more of democratic regime in Iran, but it is a normative control model and he wanted readers to believe the nuclear project reflect will of Iranian, but the nuclear project in Iran did not reflect will of Iranian.

Ray TAKEYH is a skillful and calculated person, when he drafted the above article, he pretended to be an honest person by informing readers that the cleric regime in Iran is going to develop nuclear weapon in long run, and in case the West would alter it course of negotiation with the cleric regime, it would be able to accomplish better result by allowing the cleric regime to develop their nuclear program under nuclear watch dog. He is omitting historical facts from his readers that how the cleric regime has been chanting for past 29 years of death to America and Israel, and those uttering threat statements were

not rhetoric statements. In past 29 years the cleric regime has been showing that they mean business and have carried their atrocity against the American, as well as, the Israeli citizen by taking them hostages or blown up their embassy or properties. Obviously, this terrorist state of Islamic Republic in Iran would not hesitate wipe the US and the Israel from the map. At that time of foreseen of mayhem, will TAKEYH be celebrate by Washington Post to justify his action and answering victims? There is a belief that TAKEYH would not be anywhere close by imminent future explosion.

TAKEYH claimed that the cleric state was unified in their cause toward nuclear program in Iran. TAKEYH was eschewing one important fact from his readers that the cleric regime is a normative control model; it meant that everyone must follow leader's vision and there was absent of free thinking, it really came down to process of selecting a candidate for their sham parliament and election time. A candidate needed to approve by Guardian Council of the Constitution which is a state agency to control the system from flaw and anyone is not reflecting interest of state would be disqualified to run for election. It meant only those would be allow to run for parliament that they reflected interest of state and not their constituency.

TAKEYH asserted that Mullah Hashemi RAFSANJANI was a pragmatic politician and he also endorsed nuclear development as a natural right of Iranian. Quiet frankly, RAFSANJANI is known to be a terrorist and wanted by Argentinean authority due to his terrorist act in Argentine. There is nothing pragmatic about murdering innocent people. Also, RAFSANJANI did not care about right of Iranian; he cared about his position as a powerful person in Iran which was clear when Canadian Security Intelligence Service quoted him directly "We [Iran] have learned that preserving our independence and survival in this unsuitable international climate is not possible without science, technology and the necessary tools."<sup>3</sup>

TAKEYH was hoping everyone would believe that there was will of Iranian people for nuclear development in Iran which has improved quality of life in Iran. However, this nuclear development in Iran is a passive revolution for Iranian; it did not have their consent to begin with. The Marxist-Islamist during reign of King of Kings Mohammad Reza PAHLAVI were spreading false allegation that His nuclear programs were meant to make Iranian impotent, and how come this nuclear program now was not making anyone impotent? The cleric regime ran a clandestine nuclear project, and kept the issue very quiet for a long time, and consumed large portion of Iran's revenue toward nuclear capability because the cleric regime were purchasing nuclear materials from black market. Iranian did not have anything to say about the nuclear program in Iran.

All in all, the cleric regime is going nuclear with hostile intention of destroying the West, it is about total domination of the world. TAKEYH was hoping to sell his fairy tail about nuclear mullah in Iran that the nuclear program was reflecting will of state and people. However, he came short to say that nuclear program was just in best interest of the mullah and did not reflect interest of subjects in Iran. The clock is ticking for a show

down between with the cleric regime and the West, but it is better to take the regime down with hands of Iranian.
