***Imminent War is Looming on Iran***

*Imminent war is looming on Iran , and particularly from times that the US and other the permanent members of the U.N. Security Council with veto power decided to give an incentive package to the cleric to relinquish its nuclear proliferation in Iran . The permanent members of the U.N. Security Council are fully aware that the cleric establishment in Iran would not give-up the nuclear ambitious under any circumstance as sign of god/ayatollah Khomeini has made it crystal clear that nuclear proliferation is written with red ink, since Khamenei is sign of god on earth, and has final word for everything. Thus, nuclear proliferation will continue in Iran until Mahoud AHMADI NEZHAD would wipe Israel from the map.*

*The US is fully aware that the cleric regime occupier of Iran would not relinquish its nuclear proliferation in Iran . This nuclear proliferation is a new found source of flexing muscle in the region, as well as, globally. Since the US knows very well the cleric would not give-up on their diabolic nuclear programs, the US is playing mouse and cat game and has provided more comprehensive incentive package to the cleric regime to give-up their nuclear programs, this new package is way better than past carrot and stick package which was offered to the mullah in Iran,[\[1\]](#) and while the US is given incentive to the mullah and preoccupied the mullah with the US incentive package, the US is enhancing its military present in Persian Gulf, and currently it has reach to a point that US Air Force is having difficulty to fly over Persian Gulf air zone due to high volume of flights.*

*In conclusion, the US is given more incentive package to the cleric regime to give-up on its nuclear programs and the US knows very*

*well that the cleric would not give-up on their plan to develop deadly nuclear facilities. The nuclear power would give the cleric military power to become Shiite domination in the world. Hence, it is clear in what direction the cleric regime is moving, and the US would like to stop the nuclear proliferation in Iran and not regime change in Iran, the US would like to have some kind of reason which would justify its military assault on Iran that the US offered the incentive package to the cleric in Iran and the cleric turn down the package, and there was one option left on the table which was military strike on Iran's nuclear facilities or quite frankly the US will bomb Iran to stone ages, and there is no more carrot around for anyone.*
