Newspaper for month of May 2008 Issue

### **Dedicated:**

This month's newspaper is dedicated to Her Majesty Queen of Queens Farah PAHLAVI, who is always on side of Iranian people despite 1979 Riot and bitter test of leaving Iran.

### **History of Monarchy in Iran Zamin:**

Founder of Iran Zamin is Cyrus the Great, Part Two:

In 559 BC Cyrus the Great's father passed away and Cyrus the Great ascend the throne and became King of Anshan.<sup>1</sup> He was not full fledged Monarch, He had to defeat Mighty Median Empire prior of becoming a Mighty King.

Cyrus the Great commenced His military campaign against Median Empire and Harpagus took part with Cyrus the Great's military campaign. It is unclear to understand the real motive of Harpagus for taking part with Cyrus the Great's military campaign. Perhaps there is a justifiable reason for Harpagus to take part with Cyrus the Great's military campaign that Harpagus was seeking vendetta against Median King Astyages over his son death.<sup>2</sup> It is more likely that Harpagus and Cyrus the Great wanted to overthrow the Median Empire which was unjust to its own subjects.<sup>3</sup>

In 522 BC, Cyrus the Great waged war against the Median Empire and the first battle is called Battle of Pasargadae, and Cyrus the Great continued His military campaign until<sup>4</sup>

549 BC, when Cyrus the Great subdued the Median Empire by capturing Ecbatana<sup>5</sup> and Median Empire collapsed and acknowledged Cyrus the Great as their ruler.<sup>6</sup> Cyrus the Great accepted Median Crown and called Himself King of Persia.<sup>7</sup> Consequently, Arsames was King of Persia decided to abdicate His throne, and “His son Hystaspes, who was also Cyrus’ second cousin, was then made satrap of Parthia and Phrydgia. Arsames would live to see His grandson become Darius the Great, Shahanshah of Persian, after the death of both of Cyrus’ son.”<sup>8</sup>

### Persian Gulf:

Persian Gulf is a body of water which is located in the “Southwest Asian region, is an extension of the Indian Ocean located between Iran and the Arabian Peninsula.”<sup>9</sup> Since 1960s with rise of Pan-Arabism, Jamal Abdul Nasser, who formed Republic of Egypt referred to Persian Gulf as an Arabian Gulf.<sup>10</sup> However, United Nations have taken firm stand on Persian Gulf and have instructed every nation to referee to Persian Gulf as Persian Gulf.<sup>11</sup> Arabian Gulf is ancient name of Red Sea.<sup>12</sup> “Hecataeus (472 to 509 B.C.) can be stated where Persian Gulf and Arabian Gulf (Red Sea) have been clearly shown. Also a map has remained from Herodotus, the great Greek historian (425-484 B.C.) which introduces Red Sea as the Arabian Gulf.”<sup>13</sup>

Therefore, Persian Gulf is recognized body of water by the United Nations and Arabian nations are not deprived from any kinds of right, and Iranian people are not bullying the Arabian nations to referee to Persian Gulf as Persian Gulf. It is time to rethink why some left wing and democrats are calling the Persian Gulf as the Arabian Gulf or just Gulf? Where is political correctness when you need one? Indeed, the same left wing and democrat who play innocent here are cultivating the next war in the Persian Gulf region.

### Shirin NESHAT is challenging the US media’s propaganda on hostage crisis in Iran:

The US media is a great tool for the White House administration to spread propaganda and distorting information and re-inventing event, and misleading public about reality of event of “Operation Eagle Claw” which “was a United States military operation to rescue

the 53 hostages from the U.S. Embassy in Tehran, Iran on April 24, 1980.”<sup>14</sup> Actually, on that faithful day, the US failed to supply Mujahideen in Afghanistan with arsenal so that the Mujahideen would engage in war with Russia on behalf of the US.

In 1980, the US was at proxy war with the Russia in Afghanistan, and the US was supplying the Mujahideen in Afghanistan with arsenal. The Russian’s Red Army became aware that the US cargo airplanes were landing on Iranian secret airbase at Tabas desert which is closed by Afghanistan and Iran border. On April 28th, 1980 the Russian’s Red Army fired several long range rockets and dismantled the cargo airplanes, and left the US airplanes in total dysfunction and rest of the crew left the scene of chaos and backed to US naval in Persian Gulf.

There were those who knew the system informed that former Islamic Republic of Iran’s president Abolhassan Bani Sadr was flew to the scene of incident early in the morning and there were present of Revolutionary Guards and were searching the wreckages. Mr. Bani Sadr was told to leave the area forthwith. Mr. Bani Sadr left the area with the airplane, and all of sudden Iran’s F-4 and F-5 rushed to the scene of incident and bombarded the wreckage and killed all Revolutionary Guards at site of US airplanes wreckage and destroying any evidence and witnesses that the America was using the Tabas desert as a station to provide arsenal to the Mujahideen in Afghanistan. In this fashion, the US avoided face to face confrontation with the Russia, and the US claimed that this operation was about to rescue hostages in Tehran.

Interestingly, the Tabas desert is too far away to city of Tehran and it is close to Afghanistan border. It would be wise for any rescue mission to be carry close by Tehran and the US airplanes to land close by Tehran, and flee Iran’s territory in rush, and one military officer was consulted and stated that there are two military bases close by Tehran, one is called Semnan, and last is called Gharmsir. It is about one hour drive with military vehicles to reach to above destinations and they are well known places for military training and absent of civilian. These are prime spots for the US airplanes to land. These bases were made so in case the Russian’s Red Army would launch an assault on Iran, the US would supply Imperial Iranian Armed Forces with weapons so that the Imperial Iranian Armed Forces would repel the Russian’s Red Army out of Iran. Thus, this whole idea that the US airplanes landed in the Tabas desert is an absurd idea. Plus, the Tabas desert would be wrong place to carry secret operation because of Imam Reza and pilgrim. It is a heavy traffic area, and would not be so wise to land their airplanes over there and with loud noise of airplanes would get attention of people and would be impossible to carry some kind of discreet and secret operation.

Truly the US media and the White House are making-up story as they go along and thinking everyone is naïve and going to believe what they are saying, and merit of their story is questionable and doubtful.

Let's rethink about what we have heard, what our parents taught us, let's challenge conventional wisdom of a society, and make a rational decision.

### History of Flag:

This portion of the paper is credit due to Javid Iran, who has done extensive research on flag history of Iran.

“Ancient Iranians believed that Sun is the center of energy and the lion was the symbol of bravery and power, and kingship. Mithras the found of ancient religion or "love and peace" which was ancient religion of Iranians believed that a "messiah" will come to rescue the humanity and will destroy the caw that is sitting on the nutrition as the symbol of most commodity. Mithras that was believed to be sun's son is powerful enough that will destroy the caw. Therefore in most archeological documents and carving we see an angle or a lion fighting with a caw (Persepolis, Apadana Palace's stairs).

Therefore an artifact engraved with Lion and Sun with portrait of an angle who represents Mithras has been discovered in most ancient archeological discoveries.”<sup>15</sup>

In 1979, the Pahlavi Dynasty collapsed in Iran and Khomeini returned to Iran. On May 09<sup>th</sup>, 1980 Khomeini ordered new flag<sup>16</sup> because Khomeini believed lion was symbol of rebellion and Hamid NADIMI removed lion and sun and replacing it with symbol of Allah.<sup>17</sup> Actually, it has no resemblance to Allah, and some have been kind and say it has resemblance to spider in the middle of the flag. In this moment, when Khomeini removed the lion from the flag, Khomeini castrated every Iranian by removing lion and sun symbol from the flag.

#### Canada's stand on Regime Change in Iran:

The Office of the Right Honourable Stephen Harper, Prime Minister, has forwarded to me your email and attached articles concerning the Iranian government. I regret the delay in replying to you.

The Government of Canada does not support a policy of regime change in Iran and, therefore, does not support any movement to overthrow the regime or to see parts of Iran secede. Canada believes it is up to the Iranian people to choose for themselves, through

Feeling Pain:

Remembering those brave souls, remembering those brave souls, as if those brave souls are walking before our eyes in this very moment and we will remember those brave souls forever who called themselves *john nesar* to Pure Divine Motherland of Iran, and His Majesty, Light of Aryan, King of Kings Mohammad Reza PAHLAVI I. Those brave souls are walking toward death squad and embracing death with joy and glory and walking away from us with honor and dignity so they would not witness today Iran is burning. However, there are traitors among Imperial Iranian Armed Forces, and there is a man with name of Mohammad Bagher PAKRAVON, who is sitting in another room, and Mullah Yunesi would ask PAKRAVON to pass a death verdict with legal tone to his own rank, and remembering traitors too.

PAKRAVON has no relation with Honorable Immortal General Hassan PAKRAVAN. This PAKRAVON entered in Imperial Iranian Armed Forces as a sergeant, and as Iran was a meritocracy under reign of Pahlavi Dynasty, he passed national exam, and entered University of Tehran and continued his education in field of law. Once, he earned his law degree from the University of Tehran, he commenced to work in Imperial Iranian Military Justice Department.

Mohammad Bagher PAKRAVON was part of cleric circle from time he entered in the army, and he was outspoken and distasteful about His Majesty. Despite, all animosity against head of state, he never faced any kind of SAVAK brutality. Thus, there was freedom of speech in Iran.

In 1979 riot, he assisted Mullah Yunesi to pass death verdict to Imperial Iranian Armed Forces, he also took part in execution of 18 Tir Uprising of Imperial Iranian Armed Forces.

Currently, Mohammad Bagheri PAKRAVON has a law firm in Tehran, his children are doctors, three sons and one daughter, and his wife passed away about two years ago. He always carries a hand gun and sleeps with his hand gun. Every year he calls Mullah Yunesi so mullah Yunesi would give PAKRAVON one gold coin. Truly, PAKRAVON is nothing but a slave of mullah.

Indeed, Ebrahim YAZDI is right that he actually did not enter death sentence to Imperial Iranian Armed Forces, there were others too, and bring them to justice. Ebrahim YAZDI should not be worry, Sarbazan knows other traitors too and Sarbazan information is not restricted to Mohammad Bagher PAKRAVON, there are others too who are identified, and will bring them to justice in future. In case of YAZDI, he is, as guilty as, anyone else for forming Kangaroo Court against Imperial Iranian Armed Forces. Remember children of *jan nesar* are alive and will seek justice for their pain and loss.

Defending Iran:

Saturday April 12<sup>th</sup>, 2008

Honorable Senator Dianne Feinstein  
United State Senate

Fax: 202-228-3954

Honorable Senator Dianne Feinstein:

RE: Exporting Marxist-Islamist Revolution

In 1979, the Islamic Republic was incepted in Iran under core philosophy of Marxist-Islamist utopia with hostile intention of exporting its revolution to the world and the US. The Marxist and Islamism core philosophies are sharing same value of exporting their cause around the world by means of using force, fear and fraud. Initially, it was unclear how Marxist and Islamism were contemplating to export their revolution to the world and the US. Today, there is a clear understanding how the cleric regime is exporting their revolution to the world and the US by forming unholy alliance with the US's left wing minded individuals.

The cleric regime in Iran has been chanting death to America and death to Israel since 1979, and has been promising to their mind liked individuals total annihilation and domination of West by sword of Islam. Interesting, there is no longer need for a sword to spread Islam globally and the US, the cleric regime in Iran have nuclear capability which is just matter of pushing a bottom.

The cleric regime is in position to spread its agenda in the US by forming National Iranian American Council in the US soil which is acting as an invisible hand of the cleric regime. The National Iranian American Council has formed alliance with the democrat party and the left wing groups in the US so that they can endorse best interest of the cleric regime in the legislative body of the US while ignoring the real fact that the cleric regime

in Iran has no legitimacy to govern its subjects. Simply approaching from economic aspect that in 2006, Export Development Canada reported 10% of population is possessing 75% of Iran's wealth and 90% of population is possessing 25% of Iran's wealth, and there is a pervasive social inequality in Iran due to the cleric regime's internal policy of maintaining status quo. Thus, the cleric regime does not have support of Iranian people and by applying more economic pressure like sanctions on the cleric regime would motivate Iranian people to rise against the cleric regime which is chanting death to America and promise of wiping Israel off the map, Iranian people would revolt against the state in Iran and will topple the Islamic Republic in Iran without US intervention in Iran.

The bottom line, Iranian people are not citizens of the cleric regime, Iranian people are subjects of the cleric regime, and subjects do not have any kind of rights. Despite above reality of life in Iran, the US senator, politicians, as well as, those who call themselves think tank that they are inclined toward left side of political spectrum have decided to work closely with the National Iranian American Council which is acting as the invisible hand of the cleric regime in the US so that the cleric regime would export its revolution in the US. Consequently, there is a matter of safety and security of everyone here at stake and no longer Senator Dianne Feinstein action can be tolerated and you need to resign from office so a competent person can do the task.

Thank you,

Kind regards

Signed

Shirin NESHAT

US Presidential election 2008:

Senator Barack Hussein Obama is Bad News:

Senator Barack Hussein Obama is a wrong candidate to be elected to US President Office, and has nothing to do with his race neither to do with his faith. It has to do with his action.

Senator Obama has recruited democrat think tanks like "Pete Rouse, a 30 year veteran of national politics and former chief of staff to Senate Democratic Leader Tom Daschle, as his chief of staff, and economist Karen Kornbluh, former deputy chief of staff to Secretary of the Treasury Robert Rubin, as his policy director. His key foreign policy advisers include Samantha Power, author on human rights and genocide, and former Clinton administration officials Anthony Lake and Susan Rice."<sup>18</sup> The above individuals advised President Clinton how to appease with Taliban in Afghanistan which eventually lead to 9/11 fiasco.

---

<sup>18</sup> [http://en.wikipedia.org/wiki/Barack\\_Obama#Senate\\_career](http://en.wikipedia.org/wiki/Barack_Obama#Senate_career)

In case, Senator Barack Hussein Obama is elected to the US President Office, he would re-adopt appeasement foreign policy of Clinton. He is already in a state of denial that Al-Qaida was active in Iraq. Case to prove, when US airplanes were bombarding Afghanistan, Zarqawi fled Afghanistan and hid in Iraq, he hid in Iraq because he was familiar with Iraq and was comfortable to live in Iraq. When the US forces liberated Iraq, Zarqawi waged partisan war with the US forces in Iraq and caused Iraq to become unstable region which gave ammunition to the cleric regime in Iran to spread their reign of terror in Iraq.

Senator Barack Hussein Obama is not a patriotic person at all. Case to prove, when US General Petraeus was presenting his report to Congress about the US troops achievement and shortfall in Iraq, Obama was censuring the General Petraeus at every step and wanted to put him down and ignoring merit of the General's hard work. Obama never wanted to support General Petraeus action as a good cause, and boosting morale of the US troops in Iraq.

The bottom line, Senator Barack Hussein Obama is a wrong candidate for the US President Office because of what he wants to do to future of the US. He wants, the US, to re-adopt appeasement foreign policy with the terrorist entities which means the terrorist would become more hostile against the American, and already signs of disasters are at every corner of streets, Muslims are holding a placarded and are saying God is Great and Obama is the leader, now you do the math.

#### Memoir of a Soldier:

My father was an illiterate man, and at home he always talked about His Majesty Reza PAHLAVI the Great's contribution to Iran. My father believed that he was a true leader and only solution for Iran. His Majesty was a firm Man, He would stair at another man, and he would fall apart and that is what Iran needed at that time.

My father always talked highly about Imperial Iranian Armed Forces, and a man in uniform was everything. As a result, military uniform had some kind of enigma for me, and wanted to feel it.

I was a straight "A" student throughout my school years and my family wanted me to enroll in medical school. I decided to enroll in a military college with my buddies. We applied to the military college in field of infantry unit, and our application was accepted by the military college. In first order of business, I wrote an entrance exam for the military college and passed the entrance exam. In second stage of my future career, I had to pass a medical exam which I did. In last stage, I needed someone to sign assuredly/guarantor for me that I would not steal a rifle or any kind of military equipments, which was arranged for me.

I attended the military college and was wearing my cadet uniform and felt so proud of myself for serving my country and the King, it was best moment of my life. Once, I

graduated from the military college, I was recruited in Special Forces which were known as Ranger, and Tekavar. The United States of America was given the military training to us. The Ranger unit composed of twelve men, and the Tekavar unit composed of two men, and would receive parachute training. The above Special Forces were receiving most of their training by Caspian Sea to confront Russian invasion of Iran.

There was another highlight of my military career when Dr. Farhad VARASTEHEH returned to Iran from Japan as a body guard of His Majesty, King of Kings Mohammad Reza PAHLAVI I because VARASTEHEH had his black belt in Karate. His Majesty instructed VARASTEHEH to give Karate training to Imperial Iranian Armed Forces, and twenty-four officers were recruited to receive the Karate training. Also, Dr. Farhad VARSETEHEH earned his doctoral from France in field of political science, and sometimes was working in foreign affair department.

There were several times that I met Honorable Immortal Major-General Ali NESHAAT when his military rank was not the General from distance, I found him to be an honorable man, who loved Iran and his King dearly. He was a friendly man, and honest one. Ahura Mazda blesses his soul in paradise.

There is no doubt in my mind that future historian will write about the Imperial Iranian Armed Forces as honorable men that they defended Iran against aggression of enemy, and Imperial Iranian Armed Forces never had any kind of plan to expand Iran's territory, there was plan to keep Middle East in peace by peaceful means. Today's historians are using every occasion to earn a few bucks here and there without understanding what they are writing about or how they are tarnishing reputation of Iran in page of history, but having faith in future historian that their pen will be just one.

#### Behind Every Successful Man, There is a Strong Woman:

I was a young lady and life was good, I was attending school and one day one of my friends told me, she would come to my home for a tea with her mother. They came to our home for a tea, and we had girl's talk.

There was another time when my friend told me, she would like to have a tea party in our home, I talked with my mother and she approved the invitation. So, she came with her mother to our home, and there was another girl's talk, which was about looking at fortune with play cards.

Sometimes passed by and this time she asked me to come to their home for a tea party. So, I went to their home with my mother and we enjoyed good quality time. It was pleasant and peaceful. I really did not know what was going on, and there came a young man, and greeted me and my mother. So, we had normal conversation and we left.

I had no idea what was going on really. Quite frankly, I was oblivious that my life was changing and was moving in some direction. One day, a lady came to our home who was elder sister of that young man that I met a few days ago in my friend's house, his elder

sister came to our house and spoke with my mother for approval of courtship their daughter. My mother accepted, and a day was arranged for them to come to our home to talk about dowry and following tradition.

The day came, and this young man's family came to our home to meet my father, this young man was polite, shy, educated and well manner. So, I liked what I see at him. My mother told me to give one round of tea to everyone, so I did, and no I did not spill tea tray on him. The elder of families discussed about dowry, and my father did not have any kind of restriction about dowry or anything, he told the family that this was a young man, who wanted to have a family and as long as his daughter was satisfy about dowry and his daughter liked this young man, his father had no objection. My father was a good man, and he was a well educated for himself and had some properties in Iran. Originally, my father was residing in northern part of Iran's Azerbaijan and he was forced to flee that part of Iran due to Russian invasion of Iran. He lost most of his possession because of war; we lived in a modest house and a modest neighborhood. He loved King of Kings Mohammad Reza PAHLAVI dearly and always told us "you people do not know what Iran had been through, we live in peace because of Him."

But what would I know, what it means to be a soldier's wife, the life of loneliness and stranded in middle of no where with my children. She accepted his marriage by following traditional rule.
